COME TO ALBANIA COME TO TIRANA COME TO UET FOR EDUCATION OF EUROPEAN STANDARDS

I am Selami Xhepa, Professor of Economics and President of the European University of Tirana. As someone who has witnessed economic and social developments in the field of education during the last three decades in Albania, let me share with you some facts that make our country and our university special for your future study plans.

Located in Southeast Europe and part of the Mediterranean basin, Albania is a small country with a rich history dating back from ancient times. Greco-Roman civilizations left profound marks here, while Byzantine, Ottoman, and European influences combined to form a mosaic of rich cultures and traditions.

Albania is currently a candidate for being full member of European Union, having achieved significant progress towards modernization and integration in the world economy

Tirana, the country's capital with around 1 million inhabitants, is the center of economic, cultural, and educational activity, and the place where the European University of Tirana (EUT) has been carrying out its activity since 2006.

EUT has built an excellent international reputation for its commitment to academic excellence and preparing students for global challenges. Evidence of these achievements is the accreditation by the British Agency QAA, a guarantee for the quality of our programs and their compliance with the most advanced standards applied today.

Over the course of two decades, more than 30,000 students have passed through our auditoriums; we have grown to offer more than 50 bachelor, master, and PhD degree programs. Our students benefit from a well-rounded education that prepares them to compete in the global labor market by blending theoretical knowledge with the practical skills required for success.

To provide a complete and global education, EUT has established a wide network of international collaborations with renowned universities, offering numerous opportunities for academic exchanges, professional internships and research projects.

Over the years, we have been honored to include in our hall of fame Doctor Honoris Causa personalities and dignitaries, such as Karim Khan, renowned human rights lawyer, Muhammad Yunus, Nobel Prize laureate and currently Prime Minister of Bangladesh, Lord Anthony Giddens, Gianni Buquicchio, President Emeritus of the Venice Commission, British philosopher Roger Scruton, US diplomat Christopher Hill, Koen Lenaerts, President of the Court of Justice of the European Union, and French philosopher Luc Ferry, among others. They inspire not only our students, but also the wider academic and social community.

During studies, our students can benefit from our exchange programs at prestigious universities across Europe thanks to international exchange programs like Erasmus+, which broadens their academic and professional horizons. These international experiences provide students with the opportunity to acquire cross-cultural abilities, create professional connections around the world, and adjust more easily to an increasingly global and interconnected labor market.

EUT not only provides high-quality education, but it is also located in a country with magnificent scenery, a rich history, and a vibrant culture. Albania is a unique blend of tradition and modernity, providing you with the opportunity to immerse yourself in a new culture while pursuing your academic and professional goals.

With a rich academic heritage and a clear vision for the future, EUT remains the best option for students seeking not just a high-quality education but also an experience that goes beyond Albania's borders.

We welcome you!

PRESIDENT OF EUT
Prof. Asoc. Dr. Selami Xhepa

WHY TO STUDY IN ALBANIA

1 ■

Albania is a European country nestled along the Mediterranean, boasting over 300 days of sunshine each year. With an area of 28,748 square kilometers, it offers a unique blend of natural beauty, culture, and accessibility.

2 ■

As a candidate country for EU integration, Albania is actively aligning its institutions, economy, and educational systems with European standards - making it an exciting place for international collaboration and investment. Student cost of living significantly lower than in the EU (cost of living + rent index: 11.7 out of 100 – highly competitive)

3 ■

Multi-cultural society. Albania is a vibrant blend of cultures shaped by centuries of history. Influenced by Illyrian, Roman, Ottoman, and Byzantine traditions, it is home to diverse religious and ethnic communities living in harmony. This rich cultural mix is reflected in its traditions, architecture, and way of life.

4 ■

Employment opportunities in the 500 largest domestic companies; minimum wage of 500 euros and average wage of 1,250 euros. GDP per capita according to the World Bank is 10,012 US dollars (2024).

5 ■

Strategic Location – Situated in Southeast Europe, Albania offers quick access to both the Balkans and major EU countries. Its central position makes it ideal for students who want to explore the region, travel easily, and connect with international networks.

ALBANIA

A HIDDEN GEM IN EUROPE

Albania, located in Southeast Europe on the Balkan Peninsula, is a country rich in history, culture, and natural beauty. With its stunning Adriatic and Ionian coastlines, rugged mountains, and vibrant cities, Albania has a diverse landscape. Culturally, Albania has a rich blend of Ottoman, Byzantine, and Mediterranean influences, with vibrant folk music, dance, and culinary traditions. Economically, Albania transitioned from a state-controlled system to a market economy after the fall of communism, leading to gradual growth and integration into European markets, though challenges like poverty and unemployment remain.

TOURISM IN BLOOM

Tourism in Albania has rapidly expanded, making the country one of Europe’s most exciting emerging destinations. Passenger numbers continue to rise, with Tirana International Airport ranking among the busiest and fastest-growing in the Balkans and Europe. Improved infrastructure, strong international promotion, and Albania’s rich natural and cultural heritage have all contributed to this growth, strengthening its image as a dynamic, competitive, and increasingly popular destination for global travelers.

MESMERISING NATURE AND BIODIVERSITY

Albania offers extraordinary natural diversity, from the dramatic Albanian Alps in the north to the sunlit Albanian Riviera in the south. Its landscapes include pristine rivers, untouched valleys, protected lagoons, and national parks rich in rare flora and fauna. This natural beauty is complemented by deep cultural heritage, ancient cities, and living traditions, creating a unique destination where nature and history coexist in harmony.

GREEN COAST

Green Coast, located in Palasa Bay, is one of Albania’s most stunning Blue Flag beaches, known for its crystal-clear waters and exceptional cleanliness. Surrounded by rugged mountains and the Ionian Sea, it offers a peaceful and unforgettable escape. This hidden gem combines natural beauty with a sense of freedom and tranquility, making it an ideal destination for those seeking relaxation in an unspoiled environment.

UNESCO WORLD HERITAGE

Albania’s cultural heritage reflects centuries of history and identity. Sites like Butrint, Berat, and Gjirokaštër showcase ancient civilizations, preserved architecture, and unique traditions. Recognized by UNESCO, these treasures go beyond monuments, representing a living spirit that connects past and present. Albania offers more than sightseeing—it provides a deep cultural experience where history continues to live and inspire every visitor.

VJOSA RIVER

The Vjosa River is Europe's last wild river, flowing freely without dams through untouched landscapes. Its clear waters and rich biodiversity make it a rare natural treasure. Untamed and powerful, the Vjosa symbolizes nature's freedom and resilience. It stands as a unique ecosystem of global importance, offering a glimpse into Europe's natural past and highlighting the need for environmental preservation.

ALBANIAN RIVIERA

The Albanian Riviera is known for its crystal-clear waters, beautiful beaches, and Mediterranean climate. Blending natural beauty with charming villages and historic towns, it offers a peaceful yet vibrant atmosphere. The deep blue sea, golden sunsets, and fresh coastal air create a unique experience, making the Riviera a perfect destination for relaxation, exploration, and connection with nature.

ALPS AND TRADITION

The Albanian Alps offer breathtaking landscapes with towering peaks, deep valleys, and clear rivers. Areas like Theth and Valbona combine wild nature with peaceful beauty. Rich biodiversity and traditional villages preserve cultural heritage and authentic lifestyles. Visitors can enjoy fresh air, silence, and stunning views while experiencing local hospitality and traditional architecture in one of Albania's most remarkable regions.

TIRANA

Tirana is a vibrant and rapidly evolving city, known for its youthful energy and cultural life. With colorful streets, art, cafés, and creative spaces, it offers a dynamic atmosphere. The city blends modern innovation with tradition, shaped largely by its young population. As a growing urban center, Tirana attracts visitors with its optimism, diversity, and lively spirit both day and night.

SENIOR TESTIMONIALS

1912

Declaration of Independence

Albania declared its independence from the Ottoman Empire on November 28, 1912, marking the birth of the modern Albanian state after centuries of foreign rule.

1945

Establishment of the Republic of Albania

Following World War II, Albania became a republic and gained international recognition as a sovereign state, laying the foundation for its future development.

1991

Fall of Communism and Transition to Democracy

The peaceful protests and subsequent fall of the communist regime opened the door to democracy and a market-based economy, leading to greater political freedom and opportunities for Albanians.

1998

Adoption of the New Constitution

The new constitution, approved by referendum, established a parliamentary republic and reinforced democratic institutions, human rights, and the rule of law in Albania.

2009

NATO Membership

Albania's accession to NATO marked a significant achievement in its post-communist transformation, ensuring greater security, political stability, and international recognition.

2010

Visa Liberalization with the EU

Albanians gained the right to travel visa-free within the Schengen Area, marking a major step toward European integration and strengthening ties with EU countries.

2014

EU Candidate Status

Albania was granted official candidate status for EU membership, reflecting its progress in reforms and bringing it closer to full European integration.

2020

Albania Rising: A New Era of Global Diplomacy and International Leadership

2020 OSCE Presidency and 2022–2024 UN Security Council Membership. Albania has significantly strengthened its position in international relations through active diplomacy, leadership in global organizations, and commitment to cooperation. Its growing role reflects increased credibility, strategic partnerships, and engagement in promoting peace, stability, and multilateral dialogue worldwide.

2022

Opening of the EU Membership Negotiation

Albania officially opened its EU accession negotiations on July 19, 2022, marking a historic step toward European integration. This milestone launched a structured process of reforms, screening, and alignment with EU standards, bringing the country closer to full membership.

2023

Remarkable Growth of Tourism-Tirana, European Youth & Culture Capital

Albania gained international attention as a top travel destination, boosting its economy and showcasing its cultural heritage, from ancient ruins to pristine beaches. Our capital, Tirana is a vibrant capital city and a true center of youth and culture in the region. It blends history with modern creativity, offering lively streets, cultural events, art spaces, and a dynamic nightlife. Driven by its young population, Tirana is constantly evolving, becoming a symbol of energy, innovation, and diversity.

WHY TO LIVE IN TIRANA

1

CAREER PROSPECTS

Home to over 100 international companies, Tirana offers students valuable opportunities for internships, part-time jobs, and career growth.

2

SAFE CITY TO LIVE IN

Ranked among 10 safest countries in Europe according to Numbeo.

3

GATEWAY TO EUROPE

Very easy access to European capitals: less than 2 hours flight to any EU city.

4

VIBRANT STUDENT LIFE

With its lively cafés, cultural events, and youthful atmosphere, Tirana is a dynamic and fun city for students.

5

MULTILINGUAL ENVIRONMENT

English is widely spoken, especially among youth and professionals, making it easy for international students to adapt.

TIRANA

A JOURNEY THROUGH HISTORY, NATURE, AND URBAN LIFE

Tirana, the capital and largest city of Albania, is a vibrant and dynamic hub located in the heart of the country. The city is a blend of historical charm, communist-era remnants, and modern development. Surrounded by mountains and hills, with the Dajti Mountain to the east, Tirana enjoys a Mediterranean climate, characterized by hot summers and mild, wet winters.

HISTORICAL AND CULTURAL HERITAGE

Tirana is a city steeped in history, with a mix of Ottoman, Italian, and communist influences. Skanderbeg Square, the city's central plaza, is a focal point, surrounded by landmarks like the Et'hem Bey Mosque, the National Historical Museum, and the iconic Skanderbeg statue. The city's architecture tells a story of its layered past, from colorful Italian-era buildings to brutalist communist structures.

URBAN TRANSFORMATION

Since the 1990s, Tirana has undergone significant urban transformation. Once gray and neglected, the city has been revitalized with colorful facades, modern infrastructure, and pedestrian-friendly spaces. The Lana River, which runs through the city, has also seen extensive cleanup and beautification efforts. The Pyramid of Tirana, a former museum of the communist leader Enver Hoxha, is being repurposed as a cultural and tech hub.

BUSTLING SOCIAL LIFE AND CULTURE

Tirana has a lively social scene, with bustling cafes, bars, and restaurants that reflect the city's thriving coffee culture. The Blloku district, once a restricted area for communist elites, is now the trendiest neighborhood, known for its nightlife, boutique shops, and eateries. The Grand Park of Tirana, with its artificial lake, is a popular spot for relaxation and outdoor activities.

ECONOMIC AND POLITICAL CENTER

As the capital, Tirana is the political and economic heart of Albania. It houses government institutions, international embassies, and a growing business sector. The city is also a hub for education, with several universities and research institutions.

YOUNG AND GROWING POPULATION

Tirana is home to a youthful population, with a median age well below many European cities. The energy and creativity of its young people are evident in the growing startup culture, arts scene, and the city's many festivals and events.

CHALLENGES AND DEVELOPMENT

While Tirana is rapidly modernizing, it still faces challenges like traffic congestion, urban sprawl, and pollution. However, efforts are ongoing to improve public transportation, expand green spaces, and promote sustainable development.

TOURISM AND HOSPITALITY

Tirana is becoming an increasingly popular destination for tourists, offering a mix of historical sites, cultural experiences, and modern amenities. The city's diverse food scene, ranging from traditional Albanian cuisine to international flavors, adds to its appeal for visitors.

In essence, Tirana is a city in transition—vibrant, eclectic, and full of contrasts, offering a unique blend of tradition and modernity.

SAFETY

In terms of social safety, Albania is a welcoming country, and discrimination or hostility toward foreigners is uncommon. For students, especially those living in university areas, safety is typically not a concern. Universities often have their own security measures in place, and students can move around freely. Public transportation is widely used and safe.

COST OF LIVING IN TIRANA

Albania remains one of the more affordable countries in Europe, with a cost of living index of around 35-40% compared to Western European countries. Tirana today offers a rising standard of living, with dynamic development and growing opportunities for young people and families. Investments in infrastructure, public spaces, and technology have improved quality of life. The capital stands out for its urban energy, economic activity, and increasingly rich cultural scene. Tirana remains a vibrant, welcoming city with a clear and promising outlook for the future.

ACCOMODATION AND BASIC

- Student dormitory
- Guaranteed Spot from the EUT
- 30 mins from the University
- Free Utilities
- Groceries (monthly): Basic grocery costs range between €150–€200 per person

Alternatives

- Rent (1-bedroom apartment): In the city: €200–€400
- Groceries (monthly): Basic grocery costs range between €150–€200 per person.
- Utilities (Electricity, Heating, Cooling, Water, Garbage): Approx. €50–€100 for a standard apartment.

FOOD AND DINING

Eating Out

- Tirana offers a wide variety of restaurants, with Mediterranean cuisine being the most prominent
 - Eating out (local meal): €3–€8
 - Mid-range restaurant: €10–€20
- Student canteens are cheaper (€2–€5)
- Street Food and Cafes: Coffee culture remains vibrant, with a cup of espresso costing around €0.80–€1.20

TRANSPORT

Public buses

- Student monthly pass for EUT students: Free
- City bus (one-way): €0.40
- Public transport monthly pass: €16

Walking and cycling

- Tirana is mostly flat, so most people use bicycles to get around
- Dedicated cycling lanes are all across the city of Tirana

Transportation

- Gasoline (1 liter): €1.80
- Taxi starting fare (1.5 km): €3

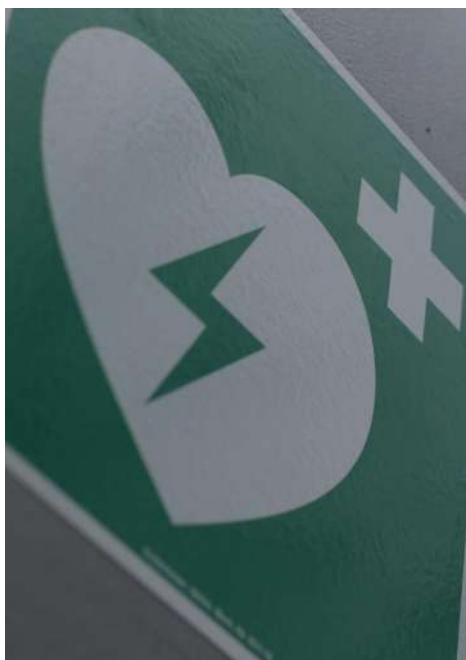

UTILITIES AND INTERNET

- Mobile phone plan (unlimited talk & data): €10–€20 / month
- Gym membership: €30 / month
- Childcare (full-time): €250–€300 / month

EDUCATION AND CHILDCARE COSTS

- Preschool/Kindergarten (Private): €150–€250 per month.
- International Schools (Yearly Tuition): Ranges between €2000 - €6,000 per year

- Doctor visit (without insurance): Free
- Basic health insurance: €15 / month
- Basic antibiotic prescription: €3

AVERAGE MONTHLY WAGES

- Retail worker: €400 - €600
- Hospitality service worker: €500 – €1000
- Seasonal Hospitality service worker: €1000 - €1500
- Nurse: €750
- English Call Center employee (6hrs): €750
- Average monthly spending: €300–€450+ depending on lifestyle and housing choice
- Part-time job: 20 hours a week
- Full-time job: 40 hours a week

COST OF LIVING INDEX

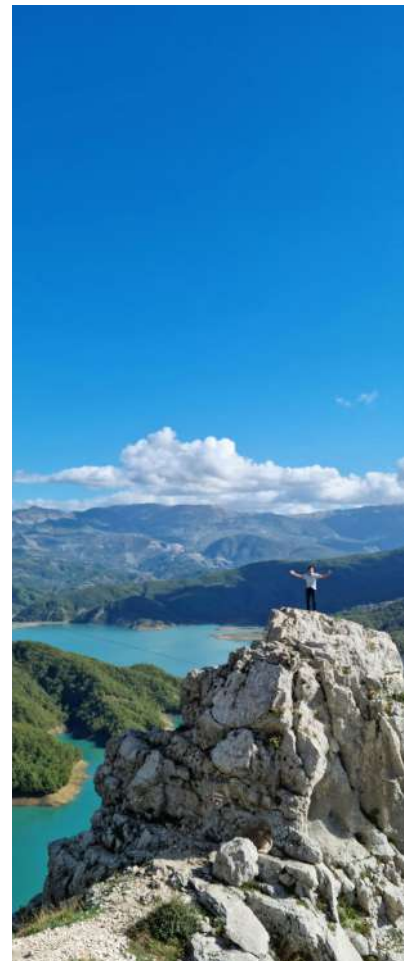

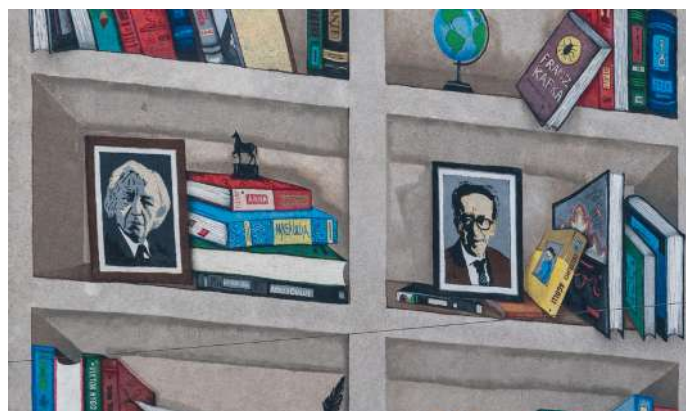

- Albania remains one of Europe's most affordable countries, with living costs about 35–40% lower than Western Europe.
- Groceries & Daily Items: Supermarkets include Big Market, Spar, Carrefour Express; local markets offer cheaper fresh products.
- Tirana malls: TEG, QTU, Citypark.
- Household Essentials (monthly): cleaning €7–€8, detergent €8, toiletries €6, paper products €3–€5, maintenance €1–€2.

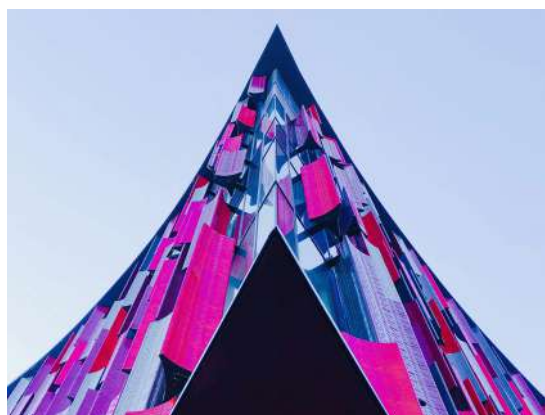

TIRANA VIBRANT CITY

Tirana is more than Albania's capital — it's a city full of color, culture, and creativity. For international students, it offers an exciting mix of academic life, social experiences, and cultural exploration. With a young and dynamic population, the city pulses with energy day and night.

From its vibrant street art and music festivals to its cozy book cafés and international cuisine, Tirana is a place where students can feel inspired and engaged. The city's compact size makes it easy to get around, while its affordable cost of living means you can enjoy more with less. Whether you're studying in the city center or just outside it, everything you need — libraries, parks, restaurants, and nightlife — is always close by.

Tirana is also incredibly welcoming. English is widely spoken, especially among young people, and the city is becoming home to a growing number of international students from across Europe, Asia, and beyond. This multicultural environment makes it easy to make friends, build networks, and feel a sense of belonging. With its mix of tradition and modernity, Tirana offers an unforgettable student experience — one that goes beyond the classroom and helps shape your future in a place that's full of opportunity, creativity, and warmth.

WHY TO CHOOSE UET

1

HIGH-QUALITY EDUCATION AT A FRACTION OF THE COST

At the European University of Tirana (UET), students receive an education that meets international academic standards—at just one-third of the cost compared to universities in Anglo-Saxon or Western European countries.

2

OPPORTUNITY TO EARN A DOUBLE DEGREE FROM LEADING EUROPEAN UNIVERSITIES

At the European University of Tirana (UET), students have the unique opportunity to earn a double degree through our strategic partnerships with prestigious universities across Europe. This means that, upon graduation, you can hold two diplomas—one from UET and one from a partner European institution.

3

OPPORTUNITIES TO PARTICIPATE IN ERASMUS+ EXCHANGE PROGRAMS

As a European University committed to internationalization, UET offers its students extensive opportunities to participate in Erasmus+ mobility programs—one of the most valuable experiences in a student's academic journey. Through our wide network of partner universities across Europe, UET students can study abroad for a semester or a full academic year.

4

GLOBAL PARTNERSHIPS WITH 100+ INTERNATIONAL UNIVERSITIES

The European University of Tirana (UET) is proud of its extensive international network, built through formal partnerships with over 100 universities and institutions across Europe, Asia, and beyond. These strategic collaborations open up a world of academic, professional, and cultural opportunities for our students and staff.

5

VIBRANT STUDENT LIFE AT UET

At the European University of Tirana (UET), learning goes far beyond the classroom. Our campus is home to a dynamic and inclusive student community where academic excellence is enriched by a vibrant student life. UET encourages students to engage, express, and evolve through a wide range of activities, clubs, and events that foster creativity, leadership, and social responsibility.

EUROPEAN UNIVERSITY OF TIRANA

MORE THAN A UNIVERSITY

The European University of Tirana (EUT) is a leading private higher education institution in Albania, known for its modern approach to education and strong focus on academic excellence. Established in 2006, EUT offers a wide range of undergraduate, graduate, and doctoral programs across disciplines such as law, business, social sciences, and information technology. The university is committed to fostering critical thinking, research, and professional development, with a curriculum aligned with European standards. With a diverse student body and a vibrant academic environment, EUT plays a significant role in shaping the next generation of professionals in Albania and the broader region. The European University of Tirana emphasizes a student-centered learning approach, combining theoretical knowledge with practical skills to prepare students for the demands of the global job market. It actively engages in international collaborations, offering exchange programs and partnerships with renowned universities across Europe. EUT's modern campus facilities and active student life further enhance the educational experience, making it a prominent choice for higher education in Albania.

EUT JOINS THE ELITE GROUP OF INTERNATIONALLY ACCREDITED UNIVERSITIES

The European University of Tirana (EUT) has reached an impressive milestone, becoming the first institution in Albania to receive global accreditation from the Quality Assurance Agency for Higher Education (QAA). The QAA is a respected independent quality body in the UK, recognized worldwide for setting high standards in higher education. EUT's accreditation is valid for five years, during which the university has proven that it meets all 10 internal quality assurance standards in the European Standards and Guidelines (ESG). However, there will be a mid-term review to ensure these standards are consistently upheld. By securing this global accreditation, EUT has also become an official QAA International Member. This membership highlights EUT's commitment to maintaining top-quality education and aligning with international standards. The QAA's International Quality Review is designed to help universities enhance their quality standards, offering support and collaboration opportunities with educational institutions worldwide.

“ This is an excellent achievement by the European University of Tirana that demonstrates their commitment to following international best practice standards in quality assurance. The IQR process has supported EUT to reflect on its approach to managing the quality of the student experience and provides confidence to prospective international partners in the robustness of the University's quality assurance processes ”

VICKI STOTT
QAA's Chief Executive

STUDENTS LIFE

Student life at the European University of Tirana (EUT) is dynamic and engaging, offering a blend of academic rigor and vibrant social experiences. The university fosters a close-knit community, where students are encouraged to actively participate in academic, cultural, and extracurricular activities. EUT's modern campus provides a welcoming environment with well-equipped classrooms, libraries, and study spaces, creating a conducive atmosphere for learning. Students have numerous opportunities to join clubs, societies, and organizations that align with their interests, ranging from debate clubs and business societies to cultural and artistic groups. EUT frequently organizes seminars, workshops, and guest lectures with industry professionals, enhancing students' knowledge and networking opportunities. The university's focus on internationalization is reflected in its Erasmus+ exchange programs, allowing students to experience studying abroad and broadening their global perspectives.

INTERVIEW PART 1

UET aims at becoming an important national and regional point of reference for cooperation in academic and research fields, publishing activities, and promotion of development of civic education values. UET seeks inclusion in development projects focusing on capacity building and exchange of staff and students, the application of European standards of quality assurance, organization of joint scientific conferences, academic publications and translations of pedagogical internationally renowned authors, teaching equipment and laboratory facilities, etc. UET encourages a culture of knowledge-sharing, openness and horizontal linkages between HEIs, CSOs, research centers, governmental organizations and relevant stakeholders. UET is a mission-driven university, fast-growing and aiming at contributing to the progress of the Albanian society through the professional and academic development of future generations, research and innovation. UET strives to become a key national and regional hub for cooperation in academic and research fields, publishing activities, and the promotion of civic education values.

INDUSTRY BREAKDOWN. The 250 companies span several sectors, reflecting the varied interests

- Technology and IT**
Software development, telecommunications, tech start-ups, IT consulting.
- Finance and Banking**
Commercial banks, insurance firms, investment companies.
- Tourism and Hospitality**
Hotels, travel agencies, event management companies.
- Marketing and Advertising**
Digital marketing agencies, PR firms, creative agencies.
- Public Administration and NGOs**
Government agencies, international non-profits organizations.

GRADUATE EMPLOYMENT OPPORTUNITIES IN COLLABORATION WITH 250 COMPANIES

The European University of Tirana (EUT) has established strong connections with 250 companies across various industries, offering its graduates diverse career opportunities. This initiative aligns with the university’s mission to provide practical and high-impact educational experiences, ensuring that graduates are well-prepared to enter the workforce.

GRADUATE RECRUITMENT STATISTICS

Over the past three years, the collaboration between EUT and these 250 companies has led to a significant number of graduates being recruited:

and academic backgrounds of EUT students. Key sectors include:

Retail and E-Commerce

Major retailers, online stores, fashion brands.

Healthcare and Pharmaceuticals

Hospitals, private clinics, pharmaceutical companies.

Education and Training

Private schools, language centers, corporate training providers.

Construction and Real Estate

Construction firms, real estate agencies, architectural firms.

Manufacturing and Industry

Production facilities, logistics firms, supply chain management.

ATTRACTING GRADUATES: HOW COMPANIES ENGAGE

- To attract EUT graduates, companies employ several strategies:
- **ON-CAMPUS RECRUITMENT EVENTS:**
Many companies participate in job fairs and networking events organized by EUT, providing direct access to students.
- **INTERNSHIP PROGRAMS:**
Companies offer structured internships that often lead to full-time employment upon graduation.
- **COMPANY PRESENTATIONS AND WORKSHOPS:**
Regular seminars and skills workshops are hosted, allowing students to learn about company cultures, values, and career paths.
- **COLLABORATIVE PROJECTS AND CASE STUDIES:**
Some companies work closely with faculty to design real-world projects and case studies that prepare students for specific industry challenges.

10 DIMENSIONS OF LIFE IN UET

INTERNATIONAL RECOGNITION

EUT degrees are recognized across Europe, opening doors to further education and employment opportunities in various countries within the European Union and beyond. This international recognition ensures that graduates are well-prepared to pursue advanced studies or career opportunities, regardless of where they choose to live and work.

JOINT AND DOUBLE DIPLOMAS

EUT offers joint diploma programs with prestigious universities across Europe, giving you a dual degree that is recognized internationally, such as those with Paris Lodron University of Salzburg (Austria) and Ludwigshafen University of Business and Society (Germany). This collaboration not only enriches the academic curriculum but also exposes students to diverse educational systems, broadening their global perspective and enhancing their adaptability in international settings.

ERASMUS+ OPPORTUNITIES

Through the Erasmus+ program, EUT provides students with the chance to study or intern abroad, gaining valuable international experience and expanding their academic and professional horizons. These opportunities allow students to immerse themselves in different cultures, develop language skills, and build a network of international contacts that can be crucial for their future careers.

FOCUS ON EMPLOYABILITY

EUT collaborates with over 250 companies, both locally and internationally, to provide graduates with exceptional employment opportunities. Through these partnerships, students gain direct access to job openings, industry-specific training, and recruitment events that significantly boost their chances of securing employment after graduation. This collaboration with a wide range of companies offers diverse career paths and ensures that EUT graduates are highly sought after in the job market, equipped with the skills and expertise needed to excel in their chosen fields.

EU PROJECT PARTICIPATION

EUT students can actively participate in European Union-funded projects, gaining hands-on experience and contributing as experts in various fields, enhancing both their skills and resumes. Involvement in these projects not only deepens their understanding of European policies and practices but also positions them as competitive candidates in the global job market, equipped with real-world experience and a comprehensive skill set.

5

EXPERIENCED ACADEMIC STAFF

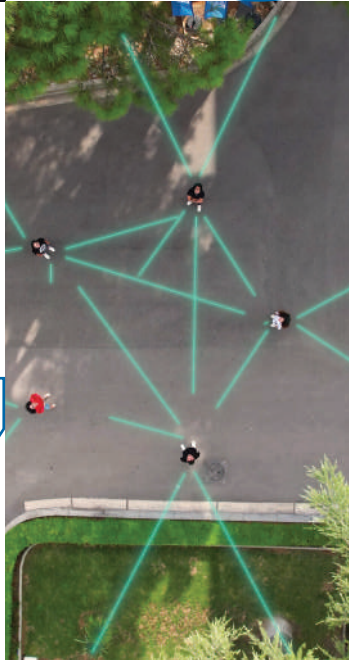

EUT boasts a highly qualified academic staff of 250 professionals, including renowned scholars, industry experts, and experienced educators. This diverse team brings a wealth of knowledge and practical experience to the classroom, ensuring that students receive a well-rounded education that combines theoretical foundations with real-world applications. The faculty's commitment to excellence in teaching and research fosters a dynamic learning environment where students are challenged, supported, and inspired to achieve their full potential.

6

VIBRANT STUDENT LIFE

At EUT, student life is dynamic and engaging, with frequent events such as concerts, cultural activities, student clubs, and sports activities that ensure a well-rounded university experience. Students can also participate in leadership programs, volunteer opportunities, and social initiatives, allowing them to develop soft skills, build lasting friendships, and make a positive impact on the community.

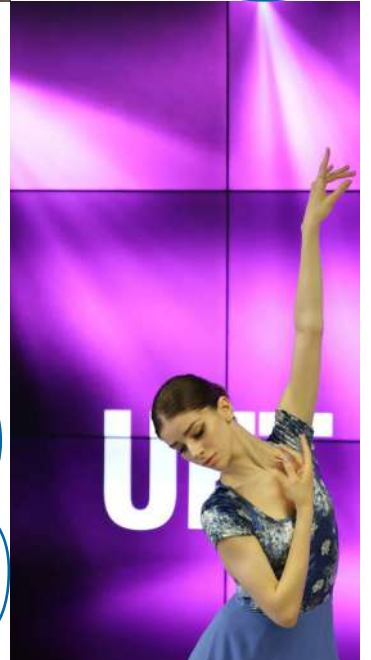

7

SUPPORTIVE COMMUNITY

EUT fosters a close-knit, inclusive community where students can easily connect with peers, faculty, and staff, promoting collaboration and a sense of belonging.

8

AFFORDABLE EDUCATION

EUT offers quality education at relatively affordable tuition rates compared to many European institutions, making it an attractive option for both local and international students.

9

MODERN CAMPUS FACILITIES

The university is equipped with state-of-the-art facilities, including modern classrooms, libraries, and computer labs, creating an ideal learning environment.

JOIN OUR ERASMUS COMMUNITY

ERASMUS & DOUBLE DEGREE PROGRAMS

More than 500+ EUT students have been beneficiaries of Erasmus exchange program. UET is actively involved in the Erasmus+ program, offering students the opportunity to study for one or two semesters at partner universities in Europe. Academic credits (ECTS) earned abroad are fully recognized. This mobility program enhances academic knowledge, language proficiency, intercultural skills, and international experience, supporting students' personal and professional growth. More than 500+ students have been beneficiaries of Erasmus exchange program. **ERASMUS BENEFITS:** Study mobility in Europe; Recognized ECTS credits; Academic and cultural exchange; Improved language skills; Increased career opportunities

21 YEARS OLD**

Is a third-year Bachelor's student in International Relations, with a specialization in European Studies, at the European University of Tirana (UET). She has gained international experience through the Erasmus+ program, completing one semester of studies at Paris Lodron University of Salzburg in Austria.

EUT STAFF GRADUATED IN TOP 1000 UNIVERSITIES*

EUT has built a strong academic reputation, partly due to its faculty, many of whom have graduated from universities ranked among the world’s top 1000. Numerous EUT professors and researchers hold degrees from prestigious institutions featured in global rankings such as the QS World University Rankings, Times Higher Education, and the Academic Ranking of World Universities. EUT faculty have attended well-known universities, including the University of Oxford and the University of Cambridge (UK); Harvard University, MIT, and Columbia University (USA); as well as leading European institutions such as the University of Bologna, Sorbonne University, and the University of Amsterdam. Additionally, many faculty members have studied at top universities in the Balkans and Central Europe. Their international education enables them to introduce cutting-edge teaching methods and research approaches at EUT, contributing to global academic discourse through publications in international journals.

IV OUR ACADEMIC OFFER

1 ■

HIGH-QUALITY EDUCATION AT ONE-THIRD THE COST

We offer world-class education comparable to Anglo-Saxon universities (accredited by QAA) and those of the European Union, but at just one-third of their tuition costs. Achieve excellence without financial burden and invest smartly in your future career.

2 ■

DOUBLE DEGREE OPPORTUNITIES WITH TOP EUROPEAN UNIVERSITIES

Through exclusive partnerships with leading European universities, students at our university can earn prestigious double degrees. This unique opportunity broadens academic knowledge, enhances credentials, and significantly boosts career prospects internationally.

3 ■

OPPORTUNITY TO PARTICIPATE IN ERASMUS+ PROGRAMS

EUT offers excellent opportunities to join the Erasmus+ programs, allowing students to study in EU countries for at least one semester, immerse themselves in diverse cultures, and gain valuable international academic and personal experience during their studies—all without any additional cost.

4 ■

PARTNERSHIP WITH INTERNATIONAL UNIVERSITIES AND COMPANIES

With partnerships including over 100 universities and more than 200 large international companies, the European University of Tirana offers students and academic staff access to collaborate in research projects, to be engaged in civil society, and gives the opportunity to develop a successful and rewarding career.

5 ■

VIBRANT STUDENT LIFE

Our students can enjoy a vibrant campus life filled with cultural events, sports, clubs, and social activities. This dynamic international environment fosters friendships, creativity, and a well-rounded university experience beyond the classroom.

BACHELOR IN NURSING

STUDY PROGRAMME OBJECTIVES

The Bachelor in “Business Informatics” study program is designed to provide students with comprehensive knowledge of information systems that support entrepreneurship, business operations, and economic processes. The program focuses on the effective management and strategic use of technology to enhance productivity and optimize the use of human, financial, and infrastructural resources. The primary objective is to prepare specialists capable of implementing technological systems to address economic and organizational challenges. Graduates acquire competencies in selecting, integrating, and managing hardware and software solutions within institutional infrastructures.

LEARNING OUTCOMES

Upon completion of the program, graduates will be able to:

- Provide individualized nursing care based on current evidence, patient values, and clinical expertise.
- Apply critical thinking and clinical reasoning skills to assess patient needs and implement appropriate nursing interventions.
- Deliver high-quality, safe, and effective patient-centred care in accordance with up-dated nursing standards and best practice guidelines.
- Demonstrate effective teamwork and professional communication skills with patients, families, and healthcare professionals.
- Utilize health information technologies and clinical equipment that support safe and efficient nursing practice.
- Implement modern nursing care plans focused on prevention, health promotion, and continuity of care across the lifespan.

JOB OPPORTUNITIES

Graduates of the Bachelor in “Nursing” may be employed as nurses in:

- Health Centres and Polyclinics
- Regional and Tertiary Hospitals
- The Institute of Public Health
- Regional Epidemiology and Screening Centres
- Palliative Care Services
- Geriatric Nursing Homes
- Home Medical Care Services
- Intensive Care Units
- Blood Transfusion Services

Graduates are eligible to apply for professional licensure and practice the regulated profession of nursing in accordance with the legal framework of the Republic of Albania.

BACHELOR IN BUSINESS INFORMATICS

STUDY PROGRAMME OBJECTIVES

The Bachelor in “Business Informatics” study program is designed to provide students with comprehensive knowledge of information systems that support entrepreneurship, business operations, and economic processes. The program focuses on the effective management and strategic use of technology to enhance productivity and optimize the use of human, financial, and infrastructural resources. The primary objective is to prepare specialists capable of implementing technological systems to address economic and organizational challenges. Graduates acquire competencies in selecting, integrating, and managing hardware and software solutions within institutional infrastructures.

LEARNING OUTCOMES

Upon completion of the program, students will be able to:

- Demonstrate solid knowledge in algorithms, programming, computer architecture, databases, Big Data, and Business Intelligence.
- Analyze and evaluate factors influencing leadership, management, and enterprise development from an information technology perspective.
- Apply both theoretical knowledge and practical skills in areas such as e-services, web design, software engineering, and computer systems organization.
- Identify and critically assess business informatics problems and apply technological solutions to economic planning and administration.
- Use computational analysis to evaluate enterprise performance and its interaction with political, economic, and social environments.
- Apply technological tools and software solutions to support short- and long-term strategic planning.
- Contribute to the design and interpretation of technological policies that foster economic growth and business expansion.

JOB OPPORTUNITIES

Graduates may pursue careers as

- IT Specialist or Computer Network Designer
- Programmer
- Business Process Specialist
- IT Specialist in banking, insurance, or financial institutions
- Human Resources Specialist
- Digital Marketing Specialist
- Banking Statistics Specialist
- Information Technology Specialist across various sectors.

BACHELOR IN BUSINESS MANAGEMENT

STUDY PROGRAMME OBJECTIVES

The Bachelor in “Business Management” study program aims to prepare qualified specialists equipped with solid theoretical knowledge and practical competencies in the field of business management. The program enables students to understand how businesses are established, organized, and developed in competitive environments. Students acquire essential managerial skills in core areas such as operations management, human resource management, marketing, finance, and strategic planning.

LEARNING OUTCOMES

Upon completion of the program, graduates will be able to:

- Demonstrate comprehensive knowledge of key business functions, including marketing, finance, operations, human resources, and strategy.
- Analyze enterprise performance and assess the influence of political, economic, and social factors on organizational development and change.
- Design and interpret short- and long-term strategic plans for organizational growth and sustainability.
- Understand the processes involved in starting, managing, and expanding a business, including innovation and risk management.
- Exhibit leadership skills and effectively manage and motivate teams.
- Plan and manage projects efficiently, ensuring delivery within time, budget, and quality requirements.
- Apply critical thinking and problem-solving skills to complex business challenges.
- Understand and implement marketing strategies to engage customers and enhance competitiveness.

JOB OPPORTUNITIES

Graduates may work as:

- Specialist/Economist in public or private organizations
- Marketing Specialist or Analyst
- Sales Specialist
- Market Research Specialist
- Budget, Cost, and Pricing Analyst
- Business Plan Analyst
- Operations Process Analyst
- Salary and Employment Sector Analyst
- Economic and Statistical Data Analyst
- Economist in public administration, insurance, public services, or human resources
- Project Specialist/Economist.

BACHELOR IN FINANCE

STUDY PROGRAMME OBJECTIVES

The Bachelor in "Finance" study program provides students with a comprehensive understanding of financial principles, markets, and institutions. The program aims to build a strong foundation in financial theory while developing analytical and quantitative skills essential for professional practice. Students are trained to identify, measure, and manage financial risks, evaluate financial performance, and support informed decision-making in both public and private sectors.

LEARNING OUTCOMES

Upon completion of the program, graduates will be able to:

- Demonstrate critical thinking and analytical skills in addressing financial and economic issues.
- Apply financial knowledge and tools to value real and financial assets, analyze corporate financial performance, and assess risk factors.
- Use mathematical and statistical methods to collect, model, and interpret data for economic and financial analysis.
- Demonstrate knowledge of core economic theories and assess economic system dynamics.
- Evaluate public policies and their impact on markets and the broader economic environment.
- Analyze financial systems, forecast trends in interest and exchange rates, and conduct portfolio and investment evaluations.

Specialisation: Banking. Students will:

- Assess the role and behavior of financial institutions within the economic system.
- Apply risk management principles in the banking sector.
- Understand financial market operations and intermediary functions.
- Develop expertise in credit analysis, loan structuring, and liquidity management.

Specialisation: Accounting. Students will:

- Apply accounting principles, financial reporting standards, and auditing concepts.
- Prepare, organize, and interpret financial statements in accordance with international standards.
- Draft professional financial reports for stakeholders in public and private sectors.

JOB OPPORTUNITIES

Graduates may pursue careers in banking, insurance, public finance, taxation, corporate finance, accounting, financial analysis, investment consultancy, fund management, financial markets, and internal or external auditing.

BACHELOR IN INFORMATICS ENGINEERING

STUDY PROGRAMME OBJECTIVES

The Bachelor in “Informatics Engineering” study program prepares specialists capable of meeting the demands of computer technology in data processing, information systems, and digital communication within engineering environments. The program equips students with theoretical knowledge and practical competencies to address software and hardware engineering challenges in both local and international labor markets. The curriculum integrates three core components of contemporary information systems: hardware, software, and information technology. Students develop strong programming skills and gain expertise in databases, computer networks, software engineering, electronics, robotics, and digital signal processing, enabling them to design, implement, and maintain advanced technological solutions.

LEARNING OUTCOMES

Upon completion of the program, graduates will be able to:

- Develop software systems using various programming languages and methodologies according to specified requirements.
- Analyze, design, and administer databases.
- Configure, manage, and maintain computer networks and IT infrastructure.
- Assess cybersecurity risks and recommend technical solutions to prevent and mitigate cyber threats.
- Maintain and improve digital communication systems, including mobile telecommunications.

Specialisation: Telecommunication Engineering. Students will:

- Configure and maintain digital transmission systems and mobile communication networks.
- Analyze telecommunications processes, including signal processing, modulation, coding, and communication protocols.

Specialisation: Software Design. Students will:

- Design, develop, and maintain software applications and information systems.
- Analyze and administer databases.
- Develop and implement digital services.

JOB OPPORTUNITIES

Graduates may be employed across sectors utilizing computer technology, including software development companies, hardware and IT service providers, financial institutions, public administration, healthcare, education, and nonprofit organizations. Career paths include IT Systems Specialist, Network Specialist, Database Specialist, Software Developer, Software Engineer, Systems Analyst, IT Project Manager, Cybersecurity Specialist, and Telecommunications Specialist.

MASTER OF SCIENCE IN BUSINESS INFORMATICS

STUDY PROGRAMME OBJECTIVES

The Master of Science in "Business Informatics" prepares highly qualified specialists with advanced expertise in information technology and its integration with economic and financial systems. The program develops in-depth knowledge in specialized IT fields, with particular emphasis on IT project management and the design of effective information systems supporting financial operations. Students acquire interdisciplinary competencies combining IT, applied mathematics, statistics, econometrics, and economic theory. The program fosters advanced problem-solving skills for research and innovation, enabling graduates to develop new technological solutions and integrate knowledge across domains. It also prepares professionals to implement, customize, and maintain financial software systems, ensuring information security and efficient IT infrastructure management.

LEARNING OUTCOMES

Upon completion of the program, graduates will be able to:

- Demonstrate advanced knowledge of programming languages and software development methodologies.
- Analyze economic and financial problems using quantitative methods and information systems solutions.
- Plan, organize, and manage IT systems that support organizational and financial decision-making.
- Work effectively with operating systems, databases, and network infrastructures to address complex business requirements.
- Communicate data-driven insights and conduct applied research in economics and finance.
- Demonstrate advanced knowledge in computer networks and IT systems administration.

JOB OPPORTUNITIES

Graduates may pursue careers as:

- Economist in management or finance-accounting roles with IT specialization
- IT Specialist (Java Programmer profile)
- Database Specialist
- Network Management Specialist
- IT Systems Analyst in financial and business institutions

The program prepares professionals for leadership roles at the intersection of information technology and business management.

MASTER OF SCIENCE IN BUSINESS ADMINISTRATION

STUDY PROGRAMME OBJECTIVES

The Master of Science in “Business Administration” prepares high-level specialists capable of managing complex organizational structures in public, private, and non-profit sectors. The program develops advanced competencies in strategic management, public administration, project and investment evaluation, and marketing management. Students acquire in-depth theoretical and practical knowledge to conduct critical analyses, integrate complex activities, and enhance organizational strategic performance. The program emphasizes project feasibility analysis, financial and technical evaluation, and effective human resource management. It also provides specialized preparation in business and marketing, focusing on strategic market operations, innovation, and research-oriented problem solving.

LEARNING OUTCOMES

Upon completion of the program, graduates will be able to:

- Apply advanced theoretical and practical knowledge in public administration and organizational management.
- Demonstrate professional competence in managing public institutions, municipalities, NGOs, and their human resources.
- Analyze, manage, and evaluate projects and their productive and financial capacities.
- Apply strategic analysis in marketing and sales across domestic and international markets.
- Develop sustainable business strategies aligned with technological and market dynamics.

Specialisations

Public Administration

Graduates will design and implement governance policies, manage public property, and apply international and Albanian best practices in public sector management.

Project Management and Evaluation

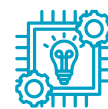

Graduates will design, implement, monitor, and evaluate investment projects, applying financial and performance indicators across sectors.

Marketing Management

Graduates will analyze markets, consumer behavior, and competitive environments; design marketing strategies; and apply innovation and advertising techniques in national and international contexts.

JOB OPPORTUNITIES

Career paths include general administrator in public or private institutions, operational process analyst, market analyst, public sector manager, project manager, cost and pricing manager, and economist in public administration.

PROFESSIONAL MASTER IN BUSINESS MANAGEMENT

STUDY PROGRAMME OBJECTIVES

The Professional Master in “Business Management” aims to prepare highly qualified professionals with advanced theoretical knowledge and practical expertise in management, administration, and policy implementation. The program develops specialists capable of operating at local, national, and international levels in both business and public sector environments. It focuses on strengthening competencies in project management and evaluation, territorial administration, and human resource management. Graduates are trained to manage organizations efficiently, contribute to policy development and execution, and support economic and social development initiatives. Particular emphasis is placed on SME management, entrepreneurship, and the strategic development of human capital to create sustainable competitive advantage.

LEARNING OUTCOMES

Upon completion of the program, graduates will be able to:

- Apply advanced management knowledge in small, medium, and large enterprises, as well as in service institutions, NGOs, and public administration.
- Improve internal organizational efficiency and managerial functions.
- Integrate international best practices with the Albanian economic and institutional context.
- Apply principles of human resource management, employment law, and organizational behaviour.

Specialisations

Territorial Management

Graduates will analyze and implement public policies, manage public property, and evaluate governance structures, financing mechanisms, and leadership processes.

Project Management and Evaluation

Graduates will design, plan, implement, and evaluate investment and development projects at all levels, ensuring effective delivery aligned with stakeholder expectations.

Human Resources Management

Graduates will proactively address HR challenges, manage workforce variability, and apply advanced knowledge in career development and organizational performance.

JOB OPPORTUNITIES

Career paths include operational process analyst, market analyst, cost and budget specialist, project specialist, economist in public administration, banking or insurance specialist, HR specialist, investment specialist, Head of Operations, and civil service specialist.

ERASMUS, JOINT DIPLOMA & DOUBLE DEGREE

UET offers Double Degree programs in cooperation with international partner universities. Students complete part of their studies at UET and part at a partner institution abroad. Upon successful completion of all academic requirements, they receive two diplomas - one from UET and one from the partner university. This strengthens international recognition and employability.

Advantages of Double Degree:

- Two officially recognized diplomas
- International academic experience
- Stronger Professional Profile
- Access to European academic networks

MASTER OF SCIENCE IN POLITICAL SCIENCE Salzburg, Austria

The Master of Science in Political Science (MSc in Political Science) is a two-year program (120 ECTS credits) designed to provide advanced theoretical and practical knowledge of contemporary political processes. With a strong focus on European integration and governance, the program enables students to develop a comprehensive understanding of democratic institutions, public policy, and international relations within an evolving global context. The curriculum includes courses such as political theory, public policy analysis, multi-level governance, European Union institutions, diplomacy, and integration processes. Particular emphasis is placed on research skills, with advanced methodological training and hands-on projects that prepare students for independent analysis

JOINT DIPLOMA/
INTEGRATION &
GOVERNANCE
(POSIG)

and evidence-based decision-making. A key feature of the program is the PoSIG (Politics of Integration & Governance) track, offered as a Joint Diploma. This international component provides students with exposure

to diverse academic environments and collaborative learning experiences across partner institutions, significantly enhancing their academic profile and employability. Graduates of the program are well-equipped for careers in international organizations, public administration, governmental institutions, non-governmental organizations, as well as research and academia. The program aims to cultivate professionals capable of contributing to effective policy design and implementation, and of playing an active role in decision-making processes at both national and international levels.

MASTER IN INFORMATION TECHNOLOGY

Mälardalen, Sweden

The Master of Science in Information Technology is a two-year (120 ECTS credits) advanced program designed to equip students with in-depth knowledge and practical expertise in modern information technologies. Delivered in collaboration with Mälardalen University as a Double Degree program, it offers an international academic experience across Tirana and Västerås, combining theoretical learning with real-world application. The program covers a wide range of core areas, including advanced software development, data management and analytics, network security, and distributed systems. Students engage with cutting-edge technologies and methodologies, gaining hands-on experience through projects, case studies,

and collaborative assignments. Emphasis is placed on developing strong analytical, problem-solving, and critical thinking skills, enabling graduates to design and implement innovative IT solutions in complex environments. A

distinctive feature of the program is its international dimension, which allows students to benefit from diverse teaching approaches, academic cultures, and industry connections in both Albania and Sweden. This exposure enhances adaptability, intercultural communication, and global employability. Throughout the program, students are encouraged to undertake research and practical projects that address current technological challenges, preparing them for both industry roles and further academic pursuits. Upon completion, graduates are well-prepared for careers in software engineering, systems analysis, cybersecurity, data science, and IT management, as well as positions in multinational companies, public institutions, and research organizations.

DOUBLE DEGREE/
MÄLARDALEN
UNIVERSITY

MASTER IN INTERNATIONAL MANAGEMENT

Ludwigshafen, Germany

The Master of Science in International Management is a two-year program (120 ECTS credits) designed to provide students with advanced knowledge and practical competencies in managing business operations within a global environment. Offered as a Double Degree in partnership with Hochschule für Wirtschaft und Gesellschaft Ludwigshafen, the program is delivered across Tirana and Ludwigshafen, combining international academic standards with practical business insights. The curriculum focuses on key areas such as global business strategy, international marketing, cross-cultural management, finance in an international context, and leadership in diverse organizational settings. Students gain a deep understanding of how multinational corporations

operate, as well as the economic, political, and cultural factors that influence international markets. Through case studies, group projects, and interactive learning methods, the program fosters critical thinking, strategic

decision-making, and problem-solving skills. A strong emphasis is placed on cross-cultural leadership and communication, preparing students to effectively manage diverse teams and navigate complex global business environments. The international mobility component allows students to experience different academic systems and business cultures, significantly enhancing their adaptability and global perspective. Graduates of the program are well-prepared for careers in multinational companies, international organizations, consulting firms, and entrepreneurial ventures. They are equipped to take on leadership roles, develop and implement global strategies, and contribute to sustainable business growth.

V STEPS TO BE A STUDENT

1 ■

SUBMISSION AND VERIFICATION OF DOCUMENTS

International students must submit all required academic and identification documents. Our admissions office carefully reviews and verifies each file to ensure eligibility and compliance with admission criteria before proceeding to the next step.

2 ■

RECEIVING THE CONDITIONAL ACCEPTANCE LETTER

Once documents are approved, the university issues a conditional acceptance letter. This letter confirms provisional admission and is a required document for initiating the student visa and residence permit application process.

3 ■

VISA AND RESIDENCE PERMIT APPLICATION

With the conditional acceptance letter, the university processes the visa application and residence permit on behalf of the student. Our international office ensures all required documents are submitted correctly and on time to avoid delays.

4 ■

ARRIVAL IN ALBANIA

After obtaining the visa, students get the admission letter and they can travel to Albania. Upon arrival, they receive initial guidance and are prepared for an enthusiastic start of their academic journey.

5 ■

ENROLLMENT AT THE UNIVERSITY

Once in Albania, students finalize their registration. They get to know the campus and the professors, and officially become part of the university community, ready to begin their academic life.

The architectural model of the new campus, designed by the internationally renowned architecture studio Ricardo Bofill, is envisioned to become operational in the 2027–2028 academic year
